- Evaluating the impact of organizational culture on the knowledge creation process: an empirical research based on the Parsons framework. (2013). *executive management research journal*, (8), 13-40.
- Determining the real structure of demand through the nested or non-nested almost ideal Box-Cox demand system (integrated data approach in urban areas of Iran). (2013). *Economic Research Quarterly. sustainable growth and development*, (2), 115-93.
- Evaluating the impact of oil income fluctuations on core inflation in Iran (1388-1998). (2013). *Economic Policy Journal*, (2), 113-130.
- Evaluation of the technical efficiency of Iran's industrial industries. (2013). *Journal of Quantitative Economics*, (2), 27-46.
- Determining the monetary optimality rule in a general stochastic dynamic equilibrium model using control theory. (2013). *Quantitative Economics Magazine*, (3), 129-158.

Evaluating the economic efficiency of Iran's electricity distribution companies. (2013). *Journal of Economic Sciences*, (1), 81-106.

Investigating stock return fluctuations in Tehran stock exchange using chaotic systems. (2011). *Journal of Monetary and Financial Economics* (1), 1 – 16.

Estimation of money circulation function in Iran's economy. (2013). *Quantitative Economics Journal*, (1), 123-145.

The external consequences of private car transportation in Tehran. (2013). *Quantitative Economic Journal*, (2), 51-77.

Estimation of the energy demand function of Khuzestan province in the household sector using the almost ideal demand system. (2010). *Economic Policy Journal*, (1), 179-201.

Investigating the efficiency of public middle school education and training schools using data envelopment analysis (DEA) case study of Ahvaz city. (2013). *Journal of Economic Policies*, (1), 117-85.

Evaluation of the productivity of housing bank production factors using Malmquist productivity index. (2018). *Money and Economy magazine*, (2), 117-143.

Non-financial characteristics affecting the quality of financial reporting in companies admitted to the Tehran Stock Exchange. (2018). *Journal of Accounting and Auditing Reviews*, (16), 51-67,

Forecasting the inflation rate in Iran's economy using dynamic artificial neural networks (time series perspective). (2018). *Quantitative Economics Journal*, (1), 145 – 167.

Evaluation of the technical efficiency of wheat production in Iran (using two parametric and non-parametric approaches). (2018). *Economic Research Quarterly Journal*, (2), 145-172.

Factors affecting the timeliness of financial reporting in companies admitted to the Tehran Stock Exchange. (2018). *Semnan University Faculty of Humanities Journal*, (27), 103 – 124.

Ranking of colleges of Shahid Chamran University using TOPSIS technique. (2018). *Journal of Educational Sciences and Psychology*, (3), 151-176.

Evaluation of the technical efficiency of wheat production in Iran (using two parametric and non-parametric approaches). (2018). *Economic Research Quarterly*, (2), 172-145.

Investigating the efficiency of Maskan Bank branches using the bootstrap algorithm. (2018). *Semnan University Faculty of Humanities Journal*, (29), 119-136.

Forecasting exchange rate using artificial neural networks and ARIMA model. (2018). *Quantitative Economic Journal*, (4), 107-130.

Investigating the Grangerian causality relationship between economic growth and the cost of higher education in Iran. (2008). *Iranian Economic Research Quarterly Journal*, (37), 61-79.

Strategies for developing a culture of healthy competition in the work and production environment. (2008). *Cultural Engineering Monthly Magazine*, (21), (22), 60-69.

Examining the attitude of members and managers of consumer cooperatives towards the factors affecting productivity improvement (case study: consumer cooperatives of Ilam province). (2018). *Research Journal of Economic Sciences*, (29), 97-118.

The position of human resources in the theories of economic growth and development. (2008). *Quarterly Journal of Human Development*, (3), 73-92.

Error correction model for private consumption in Iran. (2016). *Science and Development Journal*, (19), 199-218.

Estimation of gasoline consumption error correction model in Iran. (2007). *Journal of Business Research*, (46), 29-52.

Measuring capital efficiency in large industries of Khuzestan province. (2007). *Economic Review Quarterly Magazine*, (4).

Supply of money in Iran's economy. (2007). *Journal of Business Research*, (45), 1-22.

Estimation of the demand function for red meat in Iran. (2016). *Economic Sciences Research Journal*, (26),

Digging into the living conditions of urban areas of Khuzestan province. (2007). *Quarterly Journal of Human Development*, (4),

- Research on the development of agricultural mechanization in Hamedan province. (2016). *Journal of Scientific Agricultural Journal*, (2).
- Regional comparison of the level of agricultural mechanization development using the fuzzy method in Hamadan province. *Quantitative Economic Journal*, (4), 25-54.
- Modelling the demand for money based on the interest-free banking plan (proof of stability against political changes and long-term stability) (Translation). (2016). *Islamic Economics Journal*, (24), 171 – 207.
- Investigating the impact of sugarcane development plan and ancillary industries on the employment of human resources in Khuzestan. (2006). *Quarterly Journal of Human Development*, (2), 147-168.
- Designing a five-year strategic plan for Shahid Chamran University of Ahvaz (1378-1383) with an emphasis on productivity indicators in educational institutions. (2016). *Human Development Quarterly Magazine*, (1), 80-107.
- Estimation of the housing price function of Ahvaz city by the method of composite data. (2006). *Iranian Economic Research Quarterly*, (3), 143-173.
- Estimation of the hedonic price function of Ahvaz city housing by the method of composite data. (2015). *Iranian Economic Research Quarterly*, (28), 139-168.
- Investigating the production and export of pipes: a case study of Ahvaz Pipe Company. (2016). *Quantitative Economic Journal*, (2), 27-48.
- Factors affecting the supply of women's labour force in different groups of Khuzestan case study. (2006). *Mofid Magazine*, (54), 137-160.
- Investigating the causality relationship between exports and economic growth in Iran. (2014). *Quantitative Economic Journal*, (3), 24-3.
- The use of composite data in econometrics. (2014). *Quantitative Economics Journal*, (4), 21-52.
- A look at women's economic participation in Iran. (2005). *Journal of Economic Sciences*, (17), 77-104.

Estimation and analysis of the demand function for the labour force in the industries of Khuzestan province. (2005). *Iranian Economic Research Quarterly*, (25), 175-190.

Estimation and analysis of the labour supply function: a case study of Khuzestan province. (2014). *Quarterly Journal of Economic Research and Policies*, (33), 25-40.

Estimating the productivity function of the labour force in the industries of Khuzestan province. (2005). *Iranian Economic Research Quarterly*, (24), 33-52.

Selecting the optimal irrigation system for sugarcane fields in Khuzestan using the Topsis method. (2014). *Economic Review Quarterly Magazine*, (2), 1 – 25.

Money in the history of Muslims and estimating the value of dirhams and dinars. (2013). *Iranian Economic Research Quarterly*, (21), 51-66.

Estimation and analysis of the demand function for labour force in Khuzestan province. (2004). *Journal of Economic Sciences*, (15), 59-78.

Estimation and analysis of the labour supply function of men in Khuzestan province. (2004). *Quarterly Journal of Economic Studies*, (2).

Estimating and analysing men's labour force supply function in Khuzestan. (2004). *Quarterly Journal of Economic Reviews*, (2), 1-31.

Survey of measuring units of weight, keel, length and surface in the economic history of Muslims. (2013). *Islamic Economics Journal*, (15), 0-157.

Estimation of the production function of Ahvaz Pipeline Company. (2004). *Iranian Economic Research Quarterly Journal*, (19), 117-141.

Estimation of the production function of cold-water fishes in the farms of Kohgiluyeh and Boyer Ahmad. (2013). 147-159.

Government intervention in the economy from the point of view of the Islamic economic system. (2004). *Economic Studies Quarterly*, (1), 22-7.

Islamization of economics: concept and method. (2013). *Islamic Economics Journal*, (15), 0-129.

A reflection on the characteristics of the market from the point of view of Islam and the history of Muslims. (2003). *Economic Research Quarterly* (7), (8), 1-23.

Estimation of the consumption function of consumer goods for two groups of urban and rural households in Iran in the period 1377-1353. (2003). *Iranian Economic Research Quarterly*, (16), 23-46.

Kharaj in Islam. (2002). *Shahid Chamran University of Ahvaz Theological Faculty Journal*, (3), 123-151.
